

Greetings,

We wish you well in your retirement! You can be proud to have worked for a generous, community-minded organization that supports our region in many ways.

JOIN US!

As you move into retirement, your support is critical to continue United Way's mission to this community. We hope, therefore, that you will consider giving a donation to the Community Impact General Fund each year.

We realize retirement, at least initially, may involve a period of financial review, and perhaps readjustment. With that in mind it is important that your gift fits in comfortably with your new financial realities.

With your support, together we can build a greater Aroostook County.

ABOUT UNITED WAY

United Way is working 365 days a year to build a stronger, healthier Aroostook County. Together with hundreds of donors and partners, we raise funds for critical programs, strengthen nonprofits, encourage collaboration across organizations, and advocate for positive change that reinforces our county's ability to thrive. Your support – no matter the amount – combines with others' through collective giving to make a big impact right here in our local community. Together we can achieve what no one organization or individual can do alone.

UNITED WAY'S COMMUNITY IMPACT GENERAL FUND

United Way takes a comprehensive view of the most challenging issues across the region and helps to address them effectively through the Community Impact General Fund. We partner with local programs to create an interconnected network of service providers that help people directly and address our community's broadest challenges.

GET INVOLVED

At United Way, there are many opportunities to get involved outside of your company campaign. You can volunteer during the Aroostook Day of Service, participate in one of our events, or volunteer for one of our many programs.

Enjoy retirement and thank you!
